Dear Magazine Editors/Upcoming Events Editors:

Thank you for your assistance in publicizing the previous O Scale West/S West meets. 2017 will see the twenty seventh consecutive annual O Scale West meet along with the twelfth consecutive S West meet. O Scale West is considered the one of the best 2-rail O scale meets in the country, and is an institution among many O scalers.

S West 12 is a meet for S scale modelers and exhibitors that is held within the O Scale West meet.

This year the meet remains in the May time frame, the same time frame the 2016 meet.

This letter is to request your assistance again in publicizing the meets. Please publish this information in your "schedule of coming events" column, and if you don't have such a column, I would appreciate it if you could mention the event in your publication.
